Spray-Day-Lite is a product made for spraying and Brush-Day-Lite for brushing. These products, properly applied, will produce better results in one coat than two coats of ordinary paint. Walls painted with Spray-Day-Lite or Brush-Day-Lite may be scrubbed repeatedly. They will not flake, crack, chip or peel when applied on a solid surface and can be successfully applied to concrete, cement, brick, tile, plaster, stucco, steel or wood. Spray-Day-Lite can be applied with a minimum of fog or mist. It will produce a solid-covering, smooth coating over grimy, badly discolored and dirty surfaces without the danger of sags or runs. These products come ready to apply.

IN *Schools...*

The washing quality of Spray-Day-Lite and Brush-Day-

Lite makes these products the ideal sanitary finish for schools, college buildings, dormitories, labs, etc. Day-Lite Dado Enamels keep lower walls from soiling and marking so readily from passing traffic. High light reflecting colors ease eye strain of students.

IN *Apartments*

Change the color scheme quickly in vacant suites. Keep building interiors

in presentable condition at all times with Spray-Day-Lite or Brush-Day-Lite. Quick-acting low-cost finishes for any tenant property. Custodians can get expert results.

IN *Offices...*

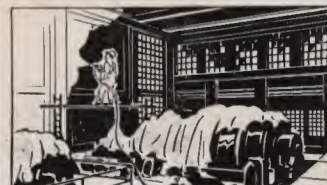

Offices may be painted to suit the color preferences of the most exacting

tastes. Work can be done after office hours without upsetting normal routine. Spray-Day-Lite and Brush-Day-Lite dry quickly without offensive odor. No expert labor needed. No fog to penetrate into halls, etc.

IN *Factories...*

Factory managers and factory superintendents everywhere applaud

Spray-Day-Lite and Brush-Day-Lite for their great efficiency in cutting the cost of artificial illumination. Dairies, laundries, bakeries and breweries - where cleanliness is essential - profit with clean Spray-Day-Lite and Brush-Day-Lite.

IN *Hotels...*

Large maintenance painting jobs like hotels, office buildings,

churches and hospitals require easy-working, solid-covering finishes like Spray-Day-Lite and Brush-Day-Lite. Varied color schemes are possible. One coat covers . . . rooms may be occupied in six to eight hours.

IN *Stores...*

Department, grocery, clothing stores . . . restaurants and specialty shops . . . sales rooms and show windows

lend themselves to the perfection of Spray-Day-Lite and Brush-Day-Lite finishes. Here are easy-covering oil enamels that mean no loss in operating time during decorating.
